

ERIC McELVENNY
Inspire

Rider/Recommendations

These are recommendations to provide the best environment for your audience during Eric's presentation. These will be discussed in more detail during Eric's pre-presentation meeting with you. He prides himself on adaptability so please let us know if these recommendations cannot be met.

MICROPHONE

- Order of preference for microphone: 1) Hands free microphone (lapel). 2) Wireless Handheld. 3) Handheld microphone with at least 20 feet of cord.
- Sound System has been tested for proper operation.
- Eric uses a powerpoint presentation with pictures, videos and audio during presentation. He prefers to send it prior to the event for it to be loaded and tested on your computer. He will bring it as a backup on a flash drive. He will also bring his own computer (PC) if necessary.
- Eric prefers a screen/projector for his presentation.

STAGE

- Eric prefers a stage that is open and empty.
- Eric does not need a podium.

BREAK

- If possible a 15-minute break immediately after Eric's speech allows him to interact with audience members, sign autographs, take photos, etc.

Thank you for your help in making this the best presentation for your audience!
